

GIRLS MATH CAMP

Add a dimension to your math passion!

Are you in 3rd grade?

Do you like Mathematics and Geometry?

Do you like exploring your way through a puzzling problem?

The Girls Math Camp is a new FREE weekly program, with fun activities that will teach you to think and reason geometrically.

The activities will help you:

- visualizing and rotating 3D-shapes in your head and reproducing them physically.
- developing geometric intuition behind mathematical problems.
- understanding how to measure lengths, areas, volumes, and reason with them.

From

September 17, 2021

Every Friday

4:00 pm - 5:30 pm

**Robinson Community
Learning Center**

1004 N Eddy St, South Bend
