## Theorem:

$0.999 \overline{9}=1$

## Proof:

Let $x=0.999 \overline{9}$, where the bar over the 9 means that the 9 s repeat forever to the right.

$$
\begin{array}{rlr}
10 x & = & 9.999 \overline{9} \\
-x & = & -0.999 \overline{9} \\
\hline 9 x & = & 9
\end{array}
$$

So $x=1$.
Quod Erat Demonstrandum!

## Theorem:

$\overline{9} 999.0=-1$

## Proof:

Let $x=\overline{9} 999.0$, where the bar over the 9 means that the 9 s repeat forever to the left.

$$
\begin{array}{rlrr}
0.1 x & & \overline{9} 999.9 \\
-x & = & -\overline{9} 999.0 \\
\hline-0.9 x & = & 0.9
\end{array}
$$

So $x=-1$.
Quod Erat Demonstrandum!
